

Wincor Nixdorf ProCash
1500Xe Front Load Lobby ATM

**Simple for you,
convenient for
your customers**

CASHCARD

The Wincor Nixdorf ProCash 1500xe Front Load Lobby ATM offers an ideal solution for indoor locations with its sleek design, compact size and front load access.

Easy for your customers to use

With a large colour screen, simple keypad and logical user menus, the ProCash 1500xe Front Load Lobby ATM ensures cardholders can complete transactions quickly and easily.

This ATM can enhance the customer experience with features such as the dip hybrid card reader to ensure no cards are captured.

Simple for you to manage

With its sleek and compact design, the indoor ProCash 1500xe Front Load Lobby ATM has been designed to fit into space restricted sites without visually impacting the surrounding premises. Cash replenishment and fault resolution is straightforward, with a user friendly interface and simple maintenance. The new Wincor Nixdorf ATM range also makes downloading the Electronic Journal easier, with the use of a USB stick rather than a floppy disk.

Robust security features

The ProCash 1500xe also has the added feature of robust security including:

- A high level UL291 level 1 safe
- A digital combination lock

Supporting your business

A Regional Account Manager will work with you to discuss the most suitable connectivity solution for your premises including a TCP/IP wireless or DSL service option, and to determine the best cash replenishment option such as self funded or third party cash service.

Cashcard also provide end to end monitoring service 24 hours a day, 7 days a week, where our helpdesk is available to assist with enquiries and fault resolution.
